

Application

A series of downlights featuring a painted white housing finish and a highly efficient LED source. Their unique beauty and versatility is enhanced by the choice of three interior metal paint finishes. These stylish metal finishes can be chosen to compliment a wide array of interior decorations, as the internally reflected light takes on the quality and color of the metal paint. The result is an eye-catching, yet subtle hint of colored light on the outside edges of the beam spread.

Materials

Aluminum housing
Silicone optic with excellent high temperature and UV stability

NRTL listed to North American Standards, for interior use only

Weight: 0.7 lbs.

Electrical

Operating voltage	120-277V AC
